

# ROSALIE F1 (V.42)

## Vilmorin Variety- Purple or White Asparagus

- Tetraploid clonal Hybrid - 80% Male
- Great production for the purple industry!

### DESCRIPTION

#### PLANT

- Tall and open
- Medium branching

#### SPEARS

- Purple spears, that give pink spears when cultivated or white.
- Tender (low fibrous tissue)
- Very good taste
- Big diameter

#### HARVEST

- Mid- early
- Good yield
- Purple or white which will turn pink after harvest

#### ADAPTATION

- Temperate climates
- Tolerant to acidic soils

#### RESISTANCES

**IR: Rust and Stemphylium resistance**

HR: High Resistance - IR: Intermediate Resistance. The genetic resistances are not dispensed from prophylactic measures to be used as an addition. Our recommendations, suggestions, growing cycles and maturity information are only indicative and based on our own observations and our general experience. They are not contractual and they do not necessarily imply a successful harvest and/or result. The success of the cultivation also depends on factors non-related with the seed.
