

MUSICO_{F1}

Early Nantes Type

- Very resistant to bolting
- Uniform and excellent root quality, high marketable yield

DESCRIPTION

PLANT

- Very good tolerance to bolting
- Healthy, upright habit
- Strong attachment, good aptitude to harvest by top lifting and bunching

ROOT

- Very cylindrical shape, well-rounded tips at maturity
- Average length: 7 – 8" (18 – 20)
- Average diameter: 1.25" - 1.5" (3 – 4 cm)
- Excellent root quality
 - Uniform size and shape
 - Smooth
 - Good color, external and internal

The root size (length and diameter) depends on the sowing population.

EARLINESS

- Recommended for early spring sowing, maturity 95-100 days

OTHER

- HR: Alternaria, powdery mildew
- Ideal for fresh market

HR: High Resistance - IR: Intermediate Resistance. The genetic resistances are not dispensed from prophylactic measures to be used as an addition. Our recommendations, suggestions, growing cycles and maturity information are only indicative and based on our own observations and our general experience. They are not contractual and they do not necessarily imply a successful harvest and/or result. The success of the cultivation also depends on factors non-related with the seed.
