

# YOSEMITE F1

## Vilmorin Variety

**Slicing, cello and cello bunching carrot. Strong tops and good root quality.**

**Recommended for the main season sowing.**

### TYPE

- Imperator

### FOLIAGE

- Strong tops and good attachment making easier harvest by top lifting,

### ROOT

- Long and slightly tapered shape,
- Average length: 10" (25-26 cm),
- Average diameter: 1" - 1 1/2 (2.5-4 cm),
- Good root quality:
  - o Smooth,
  - o Excellent color, deep orange, external and internal,
  - o Small core,

*The root size (length and diameter) depends on the sowing population.*

### MATURITY

- Medium late, maturity 130 days after sowing

*HR : High Resistance - IR : Intermediate Resistance. The genetic resistances are not dispensed from prophylactic measures to be used as an addition. Our recommendations, suggestions, growing cycles and maturity information are only indicative and based on our own observations and our general experience. They are not contractual and they do not necessarily imply a successful harvest and/or result. The success of the cultivation also depends on factors non-related with the seed.*
