

YUROK^{F1} (BCN.1301)

Lacinato Kale

- Hybrid lacinato (dinosaur) kale!
- Long harvesting period
- No purple ribs!

DESCRIPTION

PLANT

- Very uniform plant
- Compact plant habit
- Suitable for manual and mechanical harvesting
- Long cutting period providing a high production
- In case of over wintering crop, Yurok has a slow bolting in the spring.

LEAVES

- Rather long leaves, thick and very wrinkled
- Dark green – dark blue green color
- No purple ribs!

HARVEST

- Start harvesting from 55 – 65 days, according to the growing area and slot
- Recommended for the fall harvest

HR: High Resistance - IR: Intermediate Resistance. The genetic resistances are not dispensed from prophylactic measures to be used as an addition. Our recommendations, suggestions, growing cycles and maturity information are only indicative and based on our own observations and our general experience. They are not contractual and they do not necessarily imply a successful harvest and/or result. The success of the cultivation also depends on factors non-related with the seed.
