

SUPERPRO_{F1}

Tomato/ Eggplant Rootstock

- Rootstock providing a strong vigor for a long crop
- Keeps the plant productive and enhances fruit quality
- Increases the production potential by the number of fruits and size.

DESCRIPTION

Type

- Interspecific

RESISTANCES

- HR: ToMV ; V:0 ; Fol: 1,2 ; For
- IR: M ; PI

ADVANTAGES

- Keep the plant generative with early and steady flower setting
- Steady fruit setting with lower - no misshape fruits
- Strong against nematodes
- Strong root system

USES

- Suitable for all types of growing media in soil and hydroponic
- Suitable for grafting tomatoes and eggplants

HR : High Resistance - IR : Intermediate Resistance. The genetic resistances are not dispensed from prophylactic measures to be used as an addition. Our recommendations, suggestions, growing cycles and maturity information are only indicative and based on our own observations and our general experience. They are not contractual and they do not necessarily imply a successful harvest and/or result. The success of the cultivation also depends on factors non-related with the seed.
