Elongated Roma (large plum segment),

Attractive commercial presentation,

Good production potential, good fruit setting and steady fruit shape,

PLANT

- Indeterminate,
- Medium strong plant with medium long internodes, good leaf coverage,
- Good fruit setting, very good yield potential,
- Good behavior against Blossom End Rot,

FRUIT

- Large plum shape,
- Uniform and steady shape and size,
- Average size: 9-10 cm x 5-5.5 cm,
- Average weight: 130 - 150 grams,
- Excellent firmness,
- Excellent and attractive red color,

RESISTANCES (*)

- HR: ToMV; V0 (Verticillium); Fol: 0,1 (Fusarium Wilt); TSWV 0 (Tomato Spotted Wilt Virus)
- IR: M (Meloïdogyne),

HR : High Resistance - IR : Intermediate Resistance. The genetic resistances are not dispensed from prophylactic measures to be used as an addition. Our recommendations, suggestions, growing cycles and maturity information are only indicative and based on our own observations and our general experience. They are not contractual and they do not necessarily imply a successful harvest and/or result. The success of the cultivation also depends on factors non-related with the seed.
