

DAUFINE F1 (H.3154)

Yellow Witloof Chicory

- Tolerance to Safari / Cursus herbicides
- Normal to mid-late forcing

DESCRIPTION

PLANT

- Mid-upright habit
- Medium vigor
- Wide leaves with small dents

WITLOOF

- Cylindrical shape
- Standard length
- Well covered, dense, and mid-pointed
- Good color, smooth and thick leaves

EARLINESS

- Field: medium from 150 – 160 days in northern Europe
- Forcing: normal to mid late (to be checked in your local conditions)

OTHER

- High number of forcing roots
- High % of great high quality witloof
- IR: Brown Core

HR : High Resistance - IR : Intermediate Resistance. The genetic resistances are not dispensed from prophylactic measures to be used as an addition. Our recommendations, suggestions, growing cycles and maturity information are only indicative and based on our own observations and our general experience. They are not contractual and they do not necessarily imply a successful harvest and/or result. The success of the cultivation also depends on factors non-related with the seed.
